

## Vasectomy Insurance Information

- VASECTOMY is an elective procedure.
- Your initial office Consultation is NOT included in the charge for the Vasectomy and will be billed separately to your insurance.
- The procedure itself requires that 30-45 minutes be set aside in the office schedule. A **\$100 deposit** will be requested when you make your appointment for the actual vasectomy to hold this time for you. This amount will go toward any amount you may owe as copay, co-insurance or deductible. **This is non-refundable should you cancel your appointment less than 48 hours prior to your scheduled time, or not keep it at all.**
- The Norwood business office will contact your insurance carrier prior to your appointment to determine your benefits for vasectomy. **You will be responsible to pay any amount not met to date on your deductible and/or any coinsurance and this amount is due on the day of your vasectomy.**
