

Don't let Erectile Dysfunction impact the best years of your life.

Erectile dysfunction (ED) affects more than 30 million men in the U.S. It is especially common in men with **prostate surgery, diabetes, high blood pressure and obesity**. However, it is now possible to treat almost all men with ED! ED undermines a man's sexual confidence – but successful treatment can help restore it. Many ED treatments are covered by most insurance and prescription plans.

Attend a **FREE** Men's Health Webinar sponsored by **Dr. Kevin Campbell** with The Urology Group and Coloplast Corp. to educate men and their partners about approved ED treatment options.

**Wednesday, November 11, 2020**
